Object : Spontaneous application for a 12 month apprenticeship of web developer.

August 18th, 2022

Dear first name

Yoann Bezard, 25 years old, graduate with an high school diploma STI2D,

I possess a refresher certification as a web developer and a certification of application developer PGI/ERP. I already had the opportunity to acquire and strengthen my skills as a web developer during the year of experience I had during my study projects and as a self-taught.

Passionate about this job, I decided to follow a complementary training of web developers with OpenClassrooms. Accompanied by a professional mentor, I will be able to simultaneously train and design projects in the company that will hire me. I already know the basics of web development tools (HTML/CSS, JavaScript, PHP, WordPress).

At the end of this training I will have a higher national diploma.

Autonomous and motivated, I am determined, willing and ready to invest myself completely in order to carry out the tasks entrusted to me.

Always eager to bring my energy and my knowledge, I hope to have the opportunity to meet you so that we can study together the possibility of my training.

Kind regards,

Yoann Bezard.
